4. ACTION & DISCUSSION ITEMS

a. INTERVIEW OF PRINCIPAL CANDIDATES FOR THE NORTH LAS VEGAS CAMPUS

The Board interviewed Brynn Dessormeau and Mindi Palomeque for the position of principal at the Somerset North Las Vegas campus. The Board asked a series of questions to qualify the applicants for the position. The questions included the following topics: experience with Title I and EL students, experience with data, teacher retention, teachers moving to leadership positions while remaining in the classroom, experience with demographics of North Las Vegas campus, addressing underperformance without disrupting current progress, stepping into a high pressure situation, culture and climate, leadership of campus, and most important goal.

1. BRYNN DESSORMEAU

Ms. Brynn Dessormeau addressed the Board to introduce herself and reviewed her experience as reflected on her resume. During the question interview session Ms. Dessormeau relayed the following.

- Currently at a school with 80% EL population. Ensure that the EL learners have the
 strategies they need in the core classes. With most of the population coming to the Mater
 school below grade level, she outlined the strategies used to bring the students up to grade
 level including: double dosing, extra instruction, using a push in model to teach in the
 classroom, and power hour supports for EL learners.
- Following recent mid-year check they diagnosed the areas for improvement. They use the previously mentioned strategies along with i-Ready to ensure that the students had a foundation for growth.
- She would meet with current staff to assess teaching needs. She would review the data to determine where the needs were not being met. Hands on interviewing was a vital part of finding the best teachers.
- She would implement making grade level chairs or leads. Give teachers an opportunities to coach and go to conferences. She would encourage teachers to share innovative ideas during professional development.
- As an administrator it was important to become the epicenter for the students, During the pandemic they ensured that the families still had a community. She would listen to the community to understand their needs. By being visible on campus and at events the stakeholders would know she was available and approachable.
- By using the data and diagnostic she would be able to find the shining spots and make the
 necessary tweaks to improve the campus. When the community understood her
 commitment they would be willing to work together for the students.
- She was part of a school administration that was able to grow from a 1 Star school to a 3 Star school in one year. The administration implemented a plan, worked with teachers to buy into the plan, visited classrooms, and worked together as a community to achieve the growth.
- She could create the culture and climate by providing support to the stakeholders. She would be available and transparent. She would be the face of the school.

- She was currently the K-5 assistant principal at a Title I school. She worked with the teachers and leaders to review data and make needed changes. Her current leadership team implemented cross training so she was familiar with all aspects of leadership.
- Her goal on day one would be to educate students and make them better than the day before, every day.

2. MINDI PALOMEQUE

Ms. Mindi Palomeque addressed the Board to introduce herself and reviewed her experience as reflected on her resume. During the question interview session Ms. Palomeque relayed the following:

- She was familiar with Title I schools. The way to close achievement gaps was through tier one instruction and ensuring that all students had exposure to the curriculum.
- The principal's job was to review the data and create a plan to move students up. The data was used to determine what was or was not working for each teacher, then make the alignments needed to improve.
- It was easy to attract good teachers if the teachers were given the tools for success. She also provided teachers with support and love.
- It was important to create leadership teams and let the leaders know they were valued. She would encourage teachers to share best practices with other teachers and be involved with professional development.
- She would meet the stakeholders. Let them know that she could be trusted to make the best choices for the students and community.
- She would take what was working at the school and make the necessary tweaks. She would ensure that the plan was in the best interest of the students.
- She has been at underachieving schools and been able to help them grow. The growth was achieved through tier one instruction, small group instruction, and working with the subpopulations.
- Creating a climate and culture involved supporting teachers in all aspects. Doing the little things to show the teachers they were supported.
- Fiscal responsibility was one of her strengths.
- Her number one goal would be to talk to parents, then dig into the data and get working.

b. DISCUSSION AND POSSIBLE ACTION TO APPOINT A PRINCIPAL FOR THE NORTH LAS VEGAS CAMPUS

Member Bentham again reviewed the process used to narrow the applicants to the candidates presented to the Board to be interviewed. Principal Lee Esplin addressed the Board and stated that position was posted through Academica. One candidate dropped before being interviewed by the committee. During the interview process, the applicants were asked to review data from a fictitious school and create a plan for the school, which allowed the committee to assess the candidates' leadership skills. Each candidate was asked six questions during the interview process. He noted that committee members did not score or provide feedback for the candidates from their respective campus or system.

Each Board member took a few minutes to voice opinions about the candidate interviews. Member Fairless expressed concern with Ms. Palomeque's response to questions about Title I students. Both candidates were strong with good experience. Ms. Dessormeau had experience in a turnaround school. She would lean to Ms. Dessormeau. Member Mizer noted that both candidates had vast experience. Ms. Dessormeau struggled to articulate her answers to direct questions. He expressed concern with Ms. Palomeque's commitment; however, she answered that question well and he liked her experience. He leaned to Ms. Palomeque. Member Bredsguard also noted that both candidates had vast experience. Ms. Dessormeau had experience with similar demographics. Ms. Palomeque had experience at multiple campuses; adding that Ms. Palomeque spoke about the students. She leaned to Ms. Palomeque.

Member Harty like Ms. Dessormeau's experience at a Title I school. He liked Ms. Palomeque's pattern of success. He could support either candidate. Member Noble stated that he had been impressed with Ms. Dessormeau when she interviewed before; however, she had a difficult time answer questions directly. Ms. Palomeque answered directly and had experience. He would lean to Ms. Palomeque. Member Bentham stated that he liked that Ms. Dessormeau was from a Mater school. He liked Ms. Palomeque's poise. He would lean to Ms. Palomeque. Member Fairless asked if Principal Manning could let Ms. Palomeque leave mid-year to begin the transition, to which Principal Manning replied in the affirmative.

MEMBER MIZER MOVED TO APPOINT MINDI PALOMEQUE AS THE NORTH LAS VEGAS PRINCIPAL AND DELEGATE THE CONTRACT TO JOHN BENTHAM, AS BOARD CHAIR, TO HANDLE. MEMBER BREDSGUARD SECONDED THE MOTION, AND THE BOARD VOTED UNANIMOUSLY TO APPROVE.

c. DISCUSSION AND POSSIBLE ACTION TO DETERMINE DATE FOR SOMERSET ACADEMY BOARD OF DIRECTORS ANNUAL BOARD

Member Bentham stated that the suggested dates were in the week of March 21st and March 28th. Mr. Gary McClain addressed the Board and stated the Board bylaws state that the annual meeting should be held in January or February; however, due to the recent vigorous schedule the annual meeting had not been held. Member Bentham suggested Monday, March 21st, which was agreed upon by the other Board members.

3. ACTION & DISCUSSION ITEMS

a. REVIEW AND APPROVAL OF THE MINUTES FROM THE OCTOBER 6, 2021 FINANCE COMMITTEE MEETING

MEMBER DAYNE MOVED TO APPROVE THE MINUTES FROM THE OCTOBER 26, 2021 FINANCE COMMITTEE MEETING. MEMBER HARTY SECONDED THE MOTION, AND THE COMMITTEE VOTED UNANIMOUSLY TO APPROVE.

b. REVIEW AND DISCUSSION OF SOMERSET ACADEMY FINANCIAL PERFORMANCE

Mr. Marc Clayton addressed the Committee and introduced Sheri Cooper, who would be presenting the financial performance. Ms. Sheri Cooper addressed the Committee and reviewed the financial performance as contained in the support materials. The financials were through January 2022. She reviewed the financial framework information, noting that the numbers were projected through the end of the year, using the information through January.

Member Harty asked if the net income of \$2.9 million was a projection. Ms. Cooper clarified that the \$2.9 million was as of January 2022. She noted that the total salary and benefits were under budget. The SPED salaries were under budget; however, several teachers would need to be reclassified. The payroll department had checked with the schools to confirm the classification of teachers. There were several teachers at several campuses who needed to be reclassified, which should be completed by the end of March. Mr. Trevor Goodsell addressed the Committee and explained that future funding would be based on the SPED classification, making the correct coding very important. Ms. Cooper reviewed the significant under and over budget items. Member Mizer asked if the savings in salaries was due to long term subs. Principal Esplin addressed the Committee and stated that more sub days had been used more during the current year than usual. Mr. Goodsell stated that substitutes were also required to stay on the TROOP payroll longer this year before switching to salaries for the school.

Member Harty asked, given the teacher shortage, if principals should be given more leeway in how the salary money was spent. Principal Esplin stated that teacher retention was a bigger issue than normal this year. Somerset salaries were below the district pay. Member Harty noted that the Committee was concerned with teacher pay and requested an analysis or proposal for teacher pay for first year and long term teachers. Member Mizer asked why the affiliation fee was over budget. Ms. Cooper stated that it would be trued up by the end of the year. Mr. Goodsell concurred and stated that it had been budgeted at 100% enrollment. Member Mizer asked there were any budget concerns for specific campuses. Ms. Cooper stated that she did not see any red flags for the individual campuses. Mr. Goodsell stated that the North Las Vegas campus would be the tightest at the end of the year. Member Harty noted that the Stephanie campus had the lowest enrollment at 95%. Principal Esplin noted that Principal Fossett was aware of the need to recruit students in the area.

c. DISCUSSION AND POSSIBLE ACTION TO RECOMMEND APPROVAL TO GO OUT FOR RFP FOR AUDITOR BIDS FOR NEXT YEAR

Mr. Clayton stated that, according to State statutes, the audit firm needed to rotate every six years. He referred to the list of approved auditors in the support materials. Member Mizer asked if Somerset was required to approve the lowest bidder, to which Mr. Goodsell replied in the negative. Mr. Goodsell stated that Academica would request bids for each Academica managed system separately and as groups of three systems. He noted that grouping together would likely be more economical; however, limiting the number of systems grouped together would help avoid staffing and timing issues.

Member Harty moved to recommend approval of the RFP for audit services, as presented. Member Dayne seconded the motion, and the Committee voted unanimously to approve.

d. REVIEW AND POSSIBLE ACTION TO RECOMMEND APPROVAL OF INITIAL BUDGET FOR THE 2022/2023 SCHOOL YEAR

Mr. Matt Padron addressed the Committee and referred to the initial budget in the support materials. There would be a 1.3% increase in per pupil funding from \$7197 to \$7293. The enrollment number used for the budget was 9703. Mr. Padron stated that, with the downsizing at the North Las Vegas campus, the total staff had been reduced to 692 for the system. The budget was calculated at 97% enrollment. Mr. Goodsell stated that some consumable items had been increased to account for inflation. The budget included more money for salaries. Member Harty asked if the funding number was projected or a finalized number, to which Mr. Goodsell replied that it was the final number. Mr. Goodsell stated that charter schools needed to be vocal about funding equity during the next legislative session. Member Harty asked about the budget timeline. Mr. Padron stated that the initial budget was due April 15th. The final would be presented for approval in May/June and the final revised would be in November.

MEMBER DAYNE MOVED TO RECOMMEND APPROVAL OF THE INITIAL BUDGET FOR THE 2022/2023 SCHOOL YEAR, AS PRESENTED. MEMBER HARTY SECONDED THE MOTION, AND THE COMMITTEE VOTED UNANIMOUSLY TO APPROVE.

e. REVIEW AND RECOMMENDATION REGARDING NORTH LAS VEGAS TENANT IMPROVEMENT PROJECTS

Mr. McClain addressed the Committee and explained that the projects included separating the building from the leased portion, improvement of the kitchen, firewall restoration, and wall additions in some classrooms. He stated that there were also a few projects needed, such as paint, retrofits, and turf, due to the age of the building. Following discussions with Mr. Goodsell, he was requesting a not to exceed amount of \$350,000 . He noted that furniture needs were not included in this request.

MEMBER HARTY MOVED TO RECOMMEND APPROVAL OF TENANT IMPROVEMENTS, NOT TO EXCEED \$350,000, AS PRESENTED. MEMBER DAYNE SECONDED THE MOTION, AND THE COMMITTEE VOTED UNANIMOUSLY TO APPROVE.

100 Introduction

The Nevada Legislature in the 2017 legislative term enacted which stated that all Nevada Charter Schools must have an annual CPA audit. The Nevada Department of Education has developed this guide to provide guidance and clarification to what is required of charter schools and their CPA firms that wish to audit them.

In an effort to support these requirements, the State of Nevada Department of Education (the Department) has developed the charter school *Audit Guide* (*Guide*) to provide all charter schools within the State of Nevada and their independent auditors with a resource of audit requirements including illustrative financial statement formats. The requirements contained in this *Guide* must be followed by all charter schools; however, items may be added to meet the charter school's needs and independent auditor's professional judgment. The audit firm must be changed every 6 years. However, the audit partner in charge of the audit must be changed every 3 years. After 6 years, the charter school must engage another CPA firm. All financial statements must use the modified accrual basis of accounting; CPA reports using a cash basis will not be accepted. It is the auditors' responsibility to review this audit guide and comply with the requirements contained within. If all audit guide requirements are not completed, the charter school will be deemed out of compliance and all funding will be withheld until the charter school provides a modified audit that is in compliance with this guide.

101 Scope and Organization

The *Guide* contains two sections; Part I includes the audit policies and procedures and Part II includes auditing and reporting guidelines.

102 Purpose

The purpose of the *Guide* is to provide procedures to properly complete the charter school's annual audit and provides a uniform approach to the financial statement formats and the related notes to the financial statements. The *Guide* provides recommendations and requirements that will meet the individual charter school's needs to prepare and submit the annual audit report in conformity with laws, regulations and administrative policies governing Nevada charter schools.

The *Guide* also provides detailed information on the financial reporting and audit requirements of the charter school, including applicable laws and regulations regarding audits of grants awarded by the U.S. Government and other funding sources.

102 Purpose - continued

The *Guide* is to be used in conjunction with current audit standards and accounting principles generally accepted in the United States of America and is not intended to supplant these standards and principles. These standards and principles may have been updated or revised and new guidance may have been issued subsequent the issuance of this *Guide*. The charter school and its auditors are required to apply all applicable current standards to the audit performed. The *Guide* requires the auditor to properly plan and perform the audit and encourages professional judgment in determining the audit steps necessary to accomplish the audit objectives. Any recommendations or suggestions to improve this *Guide* should be sent to the Nevada Department of Education.

103 Amending the Guide

This *Guide* contains the minimum audit policies and procedures for the charter school, as of the date of its promulgation. From time to time, as additional matters require or changes to this *Guide* are appropriate, the Department will amend this *Guide*. The amendments will be published on the Department's web site at the address below:

http://www.doe.nv.gov/Boards Commissions Councils/CharterAuditCommittee/CharterAudit_Committee/

The section should be reviewed annually by the charter school and their auditor to ensure that the audit requirements are maintained on a current basis. It is the charter school's responsibility to conform to the current reporting requirements of the Department. Incomplete or incorrect annual audit reports will be rejected by the Department and will require resubmission.

104 Effective Date

The *Guide* will be effective for all charter schools with fiscal years ending on or after June 30, 2018 in which an audit is required (See Section 300), with the exception of Charter School Program Grant reporting requirements (See Appendix B).

105 Background

In accordance with Nevada Administrative Code 387.775, each charter school must have an independent audit conducted of its accounts, consistent with auditing standards generally accepted in the United States of America, and consistent with any guidelines the Department may issue.

Audits must be filed on or before November 1st with the governing body of the school. NAC 387.775(4)

The opinion and findings of the auditor contained in the report of the audit must be presented at a meeting of the governing body held not more than 30 days after the report is submitted to it. NAC 387.775(5)

Immediately thereafter, the entire report, together with the management letter required by generally accepted auditing standards in the United States, must be filed as a public record with: (a) The Department; (b) The Legislative Counsel Bureau; and (c) If the school is a charter school, the sponsor of the charter school. NAC 387.775(6)

105 Background - continued

As a special purpose governmental unit, the charter school will follow the requirements of the Governmental Accounting Standards Board (GASB). GASB is the recognized standard setting body for establishing governmental accounting and financial reporting principles. This *Guide* is updated through the issuance of GASB Statement No. 71 *Pension Transition for Contributions Made Subsequent to the Measurement Date – an Amendment to GASB No. 68.*

The charter school's activities should be accounted for as a *Business-Type Entity* and report all activity within the Proprietary Fund. The charter school will maintain their accounting records and related financial reports on the modified accrual basis of accounting. Also pursuant to GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 1989 FASB and American Institute of Certified Public Accountants (AICPA) Pronouncements*, the charter school should elect to apply the provisions of all Financial Accounting Standards Board (FASB) Statements and Interpretations, APB Opinions and ARB's of the Committee on Accounting Procedures, except for those that conflict with or contradict GASB pronouncements.

200 Contracting the Audit

The charter school's board of trustees contracts annually with a qualified certified public accounting firm to conduct the audit of the charter school's financial statements in accordance with auditing standards generally accepted in the United States of America, *Government Auditing Standards* issued by the Comptroller General of the United States; and if applicable, the *U.S Office of Management and Budget's Uniform Guidance*. The selected audit firm must be familiar with these standards and related State of Nevada charter school regulations, in order to properly conduct the audit engagement.

While not an audit standard of *Government Auditing Standards*, sound procurement practices for goods and services should be followed. The Department recommends that management document the factors considered and the conclusions reached concerning the auditor's acceptance and retention. The review of retention factors and the acceptance decision should be made in light of the knowledge about the auditor obtained from the prior audit(s) and consideration of matters that may have occurred since the prior audit.

If the audit process is to be bid, then a formal request for proposal should be prepared and all bidders should be evaluated based on a set of criteria that should include: past experience, qualification of the assigned staff, references from similar organizations, professional affiliations, technical abilities, peer review opinion and fee. This process should document how the successful bidder was determined to ensure a fair and objective selection process.

The independent auditor engaged to conduct the charter school audit must be: (a) licensed certified public accountants or persons working for a licensed certified public accounting firm; or (b) public accountants licensed on or before December 31, 1970, or persons working for a public accounting firm licensed on or before December 31, 1970.

Accountants and accounting firms meeting these licensing and independence requirements must also comply with applicable provisions of the public accountancy law and rules of the jurisdiction(s) where the audit is being conducted and the jurisdiction(s) in which they are licensed. The State of Nevada must license public accountants and accounting firms engaged to conduct audits in Nevada.

The auditor and the charter school must fully understand and comply with the independence standards contained within *Government Auditing Standards (2018 Revision)* and the *United States Government Accountability Office (GAO) Government Auditing Standards Answers to Independence Questions*. These documents are available at the GAO web site http://www.gao.gov/ and should be reviewed prior to contracting the independent auditor.

Auditors should determine whether identified threats to independence are at an acceptable level or have been eliminated or reduced to an acceptable level. A threat to independence is not acceptable if the threat either (a) could impact the auditor's ability to perform an audit without being affected by influences that compromise professional judgment or (b) could expose the auditor or audit organization to circumstances that would cause a reasonable and informed third party to conclude that the integrity, objectivity, or professional skepticism of the audit firm, or a member of the audit team, had been compromised.

200 Contracting the Audit - continued

When an auditor identifies threats to independence and, based on an evaluation of those threats, determines that they are not at an acceptable level, the auditor should determine whether appropriate safeguards are available and can be applied to eliminate the threats or reduce them to an acceptable level. The auditor should exercise professional judgment in making that determination, and should take into account whether both independence of mind and independence in appearance are maintained. The auditor should evaluate both qualitative and quantitative factors when determining the significance of a threat.

The auditor is required to document threats to independence that require the application of safeguards and the safeguards applied. For non-audit services, regardless of whether threats to independence are determined to be significant, the auditor is required to document (1) the understanding established with the audited entity regarding the non-audit services to be performed and (2) management's ability to effectively oversee the non-audit services, including whether management possesses suitable skills, knowledge, or experience to do so. The auditor also should establish and document in writing his or her understanding with the charter school regarding (1) the objectives of the non-audit service, (2) the services to be performed, (3) the charter school's acceptance of its responsibilities, (4) the auditor's responsibilities, and (5) any limitations of the non-audit service.

In order to conform to the AICPA Statement on Auditing Standard No. 114 (AU Section 380) *The Auditor's Communication With Those Charged With Governance, and Government Auditing Standards* the auditor must reach a clear understanding with the client about the services to be performed for the engagement and should document their understanding in a written engagement letter. The engagement letter should include: the objective and scope of the audit, including the financial statements and supplemental information, if any, to be opined on and the auditing standards to be complied with; management's responsibilities, including internal control over financial statement presentation, compliance and fraud and provide documentation for completion of the audit; auditor's responsibilities, audit procedures for financial statements and compliance and limitations; administrative issues, including the audit fee, workpaper retention, copy of the firm's peer review opinion and letter of comments, if any and the start and delivery dates for the audit report including the draft and final dates. This understanding should be reached prior to the start of the audit process.

201 Administering the Audit

The board of trustees should appoint an audit/finance subcommittee to monitor the audit process. The subcommittee is subject to all laws and regulations pertaining to the Open Meeting Law. This subcommittee will contract the independent auditor and review the scope and results of the audit. The audit/finance subcommittee also receives notice of any consequential irregularities and findings that the auditor noted during the engagement. Additionally, the subcommittee will develop a corrective action plan to address all relevant findings noted by the auditor. The audit/finance subcommittee will also review all financial information of the charter school and provide recommendations to the full board of trustees. Further, the Board of Trustees may delegate responsibility to accept the audit to the audit/finance committee who will acknowledge their acceptance of the audit by signing the *Acceptance of the Board of Trustees Letter* (Appendix A), which will be attached to the final audit package for submission to the Department and charter sponsor.

300 Filing Requirements - Who Must File

In accordance with Nevada Administrative Code (NAC) Section 387.775, each charter school shall have an annual independent audit conducted of its accounts, consistent with auditing standards generally accepted in the United States of America and any guidelines the Department or the Office of the State Auditor may issue.

An audit may be required for pre-opening grant funding or compliance or as a contractual requirement in a school's charter.

Additionally, a separate and agreed upon procedures may be required for charter schools that receive funding under the Federal Charter Schools Program (CSP). (See Section 303).

301 When to File

In accordance with NAC 387.775(4), a charter school shall have its independent audit concluded and submitted to the governing body not later than 4 months after the close of the fiscal year for which the audit is completed. The opinion and findings of the auditor contained in the report of the audit must be presented at a meeting of the governing body held not more than 30 days after the report is submitted to it and then immediately filed with the Department of Education, the Legislative Council Bureau and the charter school's sponsor.

If an agreed upon procedures report is required for a charter that receive CSP funding the agreed upon procedures report shall be filed on or before November 1st following the fiscal year end.

302 What and Where to File

A charter school must submit a completed *Reporting Package*, which must adhere to the format described in the *Guide* (See Section 800 *Reporting Package*). An incomplete or incorrect annual *Reporting Package* will be rejected and require correction and/or resubmission. The audit will not be considered submitted to the Department or sponsor until a complete *Reporting Package* is submitted as follows:

302 What and Where to File – continued

Papers copies of the reporting package will not be accepted; a scanned copy that is searchable in PDF format must be made available to the Department.

The Charter School Year End Report (See Section 900) –file must be submitted to sjrichards@doe.nv.gov

The Charter School Year End Report (See Section 900) signed certification statement must be submitted to sirichards@doe.nv.gov

An audit performed in accordance with the *Office of Management and Budget Uniform Guidance Audits of States, Local Governments, and Non-Profit Organizations (OMB Uniform Guidance)* must be filed with the Federal Audit Clearinghouse. Please refer to *OMB Uniform Guidance* for the federal filing requirements (See Section 500).

https://www.whitehouse.gov/omb/grants_docs/

Please note that updated filing instructions may be provided annually by the Department.

303 Additional Reporting – Charter School Program (CSP) Funding

If the School receives federal Charter Schools Program funds (CSP) (CFDA No. 84.282) directly from the Department, and the School **does not** meet the threshold for an OMB Uniform Guidance audit, an accountant's agreed upon procedures report specific to this funding is required.

If the School **does meet** the threshold of an OMB Uniform Guidance audit, and the CSP funding does not meet the criteria for a major program the auditor has the option of either including the CSP funding as a major program and testing accordingly, or performing the accountants agreed upon procedures report. See Appendix B for agreed upon procedures and sample report. The agreed upon procedures report is due November 1st following the fiscal year end and is required to be submitted as follows:

One electronic copy of the completed *Agreed Upon Procedures Reporting Package* (see Appendix B) in a PDF format must be submitted via the Department's e-mail. The PDF format must allow for searching and printing. Also, the PDF must be ADA compliant.

304 Penalty for Noncompliance

The charter school must file an annual audit report by the stated filing deadline to comply with the State of Nevada statutory and regulatory requirements. The Department reserves the right to sanction any charter school that does not comply with this requirement, including but not limited to withholding payment of state funds, conditions, probation or revocation of the charter.

400 Audit Objective

The objective of the audit is as follows: the expression of an opinion that provides reasonable assurance that the financial statements and notes present fairly, in all material respects, the financial position, results of operations and cash flows of the charter school, in conformity with accounting principles generally accepted in the United States of America; provides limited assurance on the management discussion and analysis; provides no assurance on the Department's supplemental information. The auditor will also report on the charter school's internal control related to the financial reporting and compliance with laws, regulations, and the provisions of contracts or grant agreements, noncompliance which could have a material effect on the financial statements in accordance with Government Auditing Standards.

If the audit is to be performed in accordance with the Single Audit Act Amendments of 1996 and OMB Uniform Guidance, the auditor will also report on the charter school's internal control related to its major programs and provide an opinion (or disclaimer of opinion) on compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a direct and material effect on each major program.

401 Charter School Responsibility

The management of the charter school is responsible for the preparation and fair presentation of the financial statements and related notes in accordance accounting principles generally accepted in the United States of America. Additionally, management is responsible for establishing and maintaining internal control and for compliance with the provisions of applicable laws, regulations, contracts, agreements, and grants and detecting and reporting any issues of fraud. Consequently, management is responsible for the financial statements, the related notes to the financial statements and supplemental information. The auditor will require that the charter school management confirm this responsibility through a management representation letter to be issued to the auditor at the end of the engagement.

402 Auditor Responsibility

The AICPA through the Auditing Standards Board issues Statements on Auditing Standards, which provide audit standards and identify the responsibilities of the auditor when issuing an opinion on financial statements, in accordance with auditing standards generally accepted in the United States of America. The auditor is expected to possess adequate professional proficiency and understanding of these Statements on Auditing Standards', and specific proficiency as it relates to State of Nevada charter school regulations, prior to accepting the audit engagement.

402 Auditor Responsibility - continued

The general audit standards under *Government Auditing Standards* require that the audit be performed by personnel who collectively have the necessary technical skills, maintain independence, exercise due professional care in properly planning, conducting and reporting the results of the audit and the audit firm has an appropriate quality control system that is supported by an external quality control review. In order to conform to the *Government Auditing Standards* technical skills requirement, the audit staff must maintain professional proficiency through continuing professional education (CPE) and training. A component of this training requires that each audit staff responsible for planning, directing, performing fieldwork or reporting on the audit must complete every two years, at least 80 hours of CPE, of which 24 hours of the 80 must be directly related to government auditing, the governmental environment, or specific or unique environment in which the audited entity operates.

Government Auditing Standards fieldwork standards require that the auditor plan and perform the audit to obtain sufficient appropriate audit evidence so that audit risk will be limited to a low level that is, in their professional judgment, appropriate for expressing an opinion on the financial statements. Government Auditing Standards incorporate the AICPA fieldwork and reporting standards and prescribes additional standards for financial audits performed in accordance with Government Auditing Standards.

The fieldwork standards include the following:

- The audit is properly planned and supervised. This includes:
- A sufficient understanding of the entity and its environment, including its internal control, is obtained in order to assess the risk of material misstatement of the financial statements whether due to error or fraud, and to design the nature timing and extent of further audit procedure.
- Sufficient appropriate audit evidence must be obtained by performing auditor procedures to afford a reasonable basis for an opinion regarding the financial statement under audit.
- An evaluation as to whether the charter school has taken appropriate corrective action to address findings and recommendations from previous engagements that could have a direct and material effect on the financial statements.
- The audit is designed to provide reasonable assurance of detecting misstatements that result from violation of provisions of contracts or grant agreements that could have a direct and material effect on the financial statements.

402 Auditor Responsibility - continued

The auditor is required to express an opinion or disclaim an opinion on the financial statements and notes to the financial statements of the charter school. These financial statements generally include a Statement of Activities (Government-Wide), Statement of Revenues, Expenditures and Changes in Fund Balances, Statement of Revenues, Expenses and Changes in Net Position (Proprietary Funds), Statement of Changes in Fiduciary Net Position (Fiduciary Funds), and Statement of Cash Flows. In conjunction with the financial statements, the report will include the Management Discussion and Analysis (unaudited), the Statement of Net position must have current and non-current assets and liabilities properly categorized and labeled in the Statement of Net Position. There must be a Special Ed Fund column in Revenues, Expenditures and Changes in Fund Balance. The auditor is expected to complete and audit their own financial framework verifications (Appendix E).

403 Working Papers

Government Auditing Standards require that working papers contain sufficient information to enable an experienced auditor, having no previous connection with the charter school audit, to ascertain from them the nature, timing and extent of the procedures performed, audit evidence obtained and the results or conclusions reached on significant matters. This allows the Department or other appropriate oversight officials, to adequately review the auditor's work and related conclusions. Working papers must be retained by the auditor for a minimum of five years after the issuance date or longer if the Department notifies the auditor.

500 Federal Single Audit

A charter school that expended \$750,000 (currently the fiscal year threshold) or more of federal awards through a combination of direct programs from the federal government, pass-through awards from the State of Nevada Departments, pass-through awards from other entities, such as other state or local governments and nonprofit organizations are subject to the audit provisions of the Single Audit Act and OMB Uniform Guidance. Information regarding OMB Uniform Guidance can be found at: http://www.whitehouse.gov/omb/circulars_default.

If the charter school is required to perform an audit in conformity with OMB Uniform Guidance, these requirements must be included in the School's audit report submitted to the Department. This includes, but is not limited to the Independent Auditors' Report, the Basic Financial Statement, Notes to the Financial Statements, Supplemental Information - Schedule of Expenditures of Federal Awards, Notes to Schedule of Expenditures of Federal Awards, Independent Auditors Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards, Independent Auditors Report On Compliance for Each Major Program And On Internal Control Over Compliance Required by OMB Uniform Guidance, Summary of Audit Results, Schedule of Findings and Questioned Costs and Acceptance by the Board of Trustees.

All financials must be in the modified accrual basis of accounting.

501 Charter School Responsibility under OMB Uniform Guidance

The provisions of OMB Uniform Guidance require the charter school to:

- Identify, in its accounts, all federal awards received and expended and the federal programs under which they were received. Federal program and award identification shall include, as applicable, the Catalog of Federal Domestic Assistance (CFDA) title and number, award/contract number and year, name of the federal agency, and name of the pass-through entity.
- Document the funding source for all funding received, including the amount of federal funding expended and the extent to which the charter school is subject to an audit in accordance with OMB Uniform Guidance.
- Maintain internal control over federal programs that provides reasonable
 assurance that the charter school is managing the federal awards in compliance
 with laws, regulations, and the provisions of contracts or grant agreements that
 could have a material effect on each of its federal programs.

501 Charter School Responsibility under OMB Uniform Guidance - continued

- Comply with laws, regulations, and the provisions of contracts or grant agreements related to each of its federal programs.
- Prepare appropriate financial statements, including the *Schedule of Expenditures* of *Federal Awards* in accordance with the provisions of OMB Uniform Guidance.
- Ensure audits required by OMB Uniform Guidance are properly performed and submitted when due.
- Follow up and take corrective action on audit findings, including preparation of a summary schedule of prior audit findings and a corrective action plan in accordance with the provisions of OMB Uniform Guidance.
- Electronically prepare, sign and submit the Form SF-SAC *Data Collection Form* for Reporting on Audits of States, Local Governments, and Non Profit Organizations. The Audit must be completed with the form FAC of this section and the reporting package. This section music be submitted within the earlier of 30 calendar days after receipt of the auditor's reports (s), or nine months after the end of the audit period. If the due date falls on a Saturday, Sunday, or Federal Holiday, the reporting package is due the next business day.
- Requests for management letters issued by the auditor. In response to requests
 by a Federal agency or pass-through entity, auditees must submit a copy of any
 management letters issued by the auditor.
- Report retention requirements. Auditees must keep one copy of the data collection form FAC of this section and one copy of the reporting package of this section on file for three years from the date of submission to the FAC.

502 Auditor Responsibilities

Prior to auditing the financial statements and conducting the audit of the charter school, the independent auditor is urged to consult the following requirements: Single Audit Act Amendments of 1996, the OMB Uniform Guidance, Audits of States, Local Governments and Non-Profit Organizations, the OMB Uniform Guidance Compliance Supplement, the AICPA Audit and Accounting Guide for Audits of State and Local Governments and, AU-C 035 Compliance Audits.

503 OMB Uniform Guidance Penalties

No audit costs may be charged to federal awards when audits required by OMB Uniform Guidance have not been made or have been made, but not in accordance with the provisions of OMB Uniform Guidance. In cases of continued inability or unwillingness to have an audit conducted in accordance with OMB Uniform Guidance, the circular indicates that federal agencies and pass-through entities shall take appropriate action using sanctions such as:

- Withholding a percentage of federal awards until the audit is completed satisfactorily.
- Withholding or disallowing overhead costs.
- Suspending federal awards until the audit is conducted.
- Terminating the federal award.

PART II AUDITING AND REPORTING GUIDELINES

600 Accounting Policies - Financial Reporting Entity

The charter school is classified as a special purpose government entity and operates as a business type entity within the State of Nevada. GASB Codification Section 2100 'Defining the Financial Reporting Entity' should be referred to when determining the reporting entity for the School.

The financial reporting entity consists of organizations for which the School is financially accountable. The School may determine through the exercise of management's professional judgment that the inclusion of an organization that does not meet the financial accountability criteria is necessary in order to prevent the reporting entity's financial statements from being misleading. (see Section 701). In such circumstances, that organization should be included as a component unit.

An organization other than a primary government (such as other stand-alone governments) serves as a nucleus for its reporting entity when it issues financial statements. The financial reporting entity consists of the stand-alone governments and all component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the stand-alone government are such that exclusion would cause the charter school's financial statements to be misleading. Any stand-alone government with a voting majority of its governing board appointed by a primary government should disclose that accountability relationship in its financial statements.

601 Accounting Principles

The accounting principles of the charter school must conform to accounting principles generally accepted in the United States of America (GAAP) that are applicable to a special purpose governmental entity. Therefore, revenues and expenses are recorded using the modified accrual basis of accounting and requires that revenues are recognized in the accounting period in which they are earned and expenses are recognized in the period in which goods or services are received or incurred.

602 Auditing Standards and Guidance

The charter school shall maintain their financial records in accordance with GAAP and conduct an annual independent audit in accordance with the *Government Auditing Standards* issued by the Comptroller General of the United States of America. These standards incorporate all the AICPA generally accepted auditing standards for fieldwork and reporting, as well as the related AICPA Statement on Auditing Standards'. *Government Auditing Standards* prescribes general standards and additional fieldwork and reporting standards beyond those provided by the AICPA when performing financial audits.

602 Auditing Standards and Guidance - continued

In accordance with the AICPA, the first audit fieldwork standard requires that the audit be properly planned. In planning the audit the auditor should, at a minimum, become familiar with this *Guide* and the following:

- AICPA Professional Standards
- AICPA Audit and Accounting Guide for States and Local Government Units
- Financial Accounting Standards Board Accounting Standards Codification
- Governmental Accounting Standards Board Current Text
- Government Accounting Standards Board Codification
- OMB Uniform Guidance: Audits of Institutions of States, Local Governments and Non-Profit Organization
- OMB Uniform Guidance, Compliance Supplement
- OMB Super Circular, Cost Principles for State and Local Governments
- Common Rule for Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments
- Provisions of NAC 386 related to Charter Schools
- Technical Advisories issued by the State of Nevada Department of Education

603 Audit Objectives

The primary audit objectives when performing an audit of a charter school are to determine whether:

- The financial statements and related notes are presented fairly, in all material respects, in conformity with GAAP.
- The charter school has implemented and utilized reasonable financial and administrative procedures and internal controls to adequately safeguard assets.
- State and Federal reports and claims for advances or reimbursements contain accurate and reliable financial data and are presented in accordance with the terms of applicable agreements.
- State and Federal funds are being expended in accordance with the terms of applicable agreements and those provisions of laws or regulations that could have a direct and material effect on the financial statements and related notes.

700 Financial Statement Considerations – Comparative Financial Statements

GASB standards recommend, subsequent to the first year of operation, that the charter school issue either comparative or summarized comparative financial statements depending on whether the charter school has a component unit or not. If comparative financial statements are presented, restatement of prior-period financial statements is required. Early implementation is encouraged by the Department.

701 Component Unit Consideration

In accordance with GASB, with the exception of a charter school that is part of a network of charter schools (see Section 702 for treatment of a network of charter schools), the charter school is considered the primary government. Numerous charter schools within the State of Nevada have associated organizations, which may be non-profit, for-profit, or otherwise. These organizations should be evaluated during the planning stage of the audit to determine whether or not they should be considered a component unit of the charter school, and how they should be reported in the audit. The financial information for these component units should be reported in conjunction with the charter school's financial statements and accounted for in accordance with *GASB Codification Section 2600*. See Appendix E for more information about identifying component units.

In accordance with GASB, component units can be either be treated as (1) "blended" with the charter school or (2) "discretely presented" from the charter school. Regardless of treatment, the financial information for the charter school and each component unit should be presented in individual columns in the financial statements in order to separately distinguish the balances and transactions of the charter school and the component unit(s). As required by GASB, the auditor should opine on the financial activity of the charter school and component units based on the treatment of component units.

If the charter school has a relationship with a separate non-profit or governmental entity, but the entity does not meet the criteria for including the reporting entity's financial statements as a component unit of the charter school, then all the transactions incurred between the organization and the charter school should be evaluated as related party transactions and disclosed in accordance with GAAP and the *Guide*. The Department requires that all related party transactions, whether material or immaterial be disclosed in the notes to the financial statements.

702 Considerations for a Network of Charter Schools

A network of charter schools is made up of multiple charter schools which are governed by one board of trustees. As required by GASB, the board of trustees, which oversees the network of charter schools, is considered the primary government for auditing purposes. The financial information for each charter school in the network should be presented in individual columns in the financial statements in order to separately distinguish the balances and transactions of each charter school. However, as required by GASB, the auditor is required to opine on the combined total all of all the charter schools' financial activity.

800 Reporting Package

The reporting package format of your charter school depends on whether the charter school is a part of a network of charter schools, has to conduct an audit in accordance with OMB Uniform Guidance, and/or has a component unit. The appropriate reporting package applicable to the School should be submitted.

Some variations from the illustrations may be appropriate, to conform to proper disclosures required by the charter school, GAAP and this *Guide*. The reporting package to be submitted to the Department must include the following:

Minimum Reporting Package - No OMB Uniform Guidance audit required:

- Management Discussion and Analysis
- Independent Auditors' Report
- Basic Financial Statements
- Statement of Net Position
- Statement of Revenues, Expenses and Changes in Net Position

Other Reporting Requirements by the Department:

- Management Letter, if any (under separate cover)
- Charter School End of Year Financial Report (See Section 900)
- Federal Charter School Program agreed upon procedures report, if necessary (see Section 303)

801 Management Discussion and Analysis

The Management Discussion and Analysis (MD & A) is prepared by the charter school's management to introduce the basic financial statements and provides an analytical overview of the charter school's financial activities. Although not part of the basic financial statements the MD & A is considered required supplemental information for all charter schools and is presented before the basic financial statements. The auditor should follow the guidance of SAS 120 *Required Supplementary Information*.

802 Basic Financial Statements

The following sections will provide a summary of each of the basic financial statements issued by the charter school.

803 Statement of Net Position

The Statement of Net Position reports all financial and capital resources of the charter school and reflects the difference between assets and liabilities as net position. GASB requires that the Statement of Net Position be presented using the following categories: Current Assets, Non-Current Assets, Deferred Outflow of Resources, Current Liabilities, Non-Current Liabilities Deferred Inflow of Resources and Net Position.

School should determine the classification of transactions as Assets, Deferred Outflows of Resources, Liabilities or Deferred Inflows of Resources. The following are provided as basic definitions:

Assets – Resources with present service capacity that the government presently controls.

Liabilities – present obligations to sacrifice resources that a School has little or no discretion to avoid.

Deferred Outflows of Resources – consumption of assets by a School that is applicable to a future reporting period.

Deferred Inflows of Resources – acquisition of assets by a School that is applicable to a future reporting period.

803 Statement of Net Position - continued

The following is a list of common current and non-current assets and liabilities. The list is for illustrative purposes only and is not considered to be all-inclusive.

<u>CURRENT</u>	NON-CURRENT
Assets	
Cash and cash equivalents	Land and building
Accounts receivable	Building/leasehold improvements
Grants receivable - State	Furniture and equipment
Grants receivable- Federal	Restricted cash and cash equivalents
Grants receivable - Private	Long-term investments
Contributions receivable	Reserve for future capital projects

803 Statement of Net Position - continued

The following *do not* meet the definition of Deferred Outflows of Resources and Deferred Inflow of Resources as they have present service capacity or represent a present obligation to sacrifice resources.

Deferred Outflows of Resources

Prepayments

Deferred Inflows of Resources

• Resources received in advance of an exchange transaction

Amounts included within the *Net Position* should be broken down into the following three categories:

• Net Investment in Capital Assets - Includes capital assets, including restricted capital assets, net of accumulated depreciation and reduced by any debt attributable to the acquisition, construction or improvement of those assets. The auditor must delineate how principal and interest should be presented under debt service in the Statement of Revenues, Expenditures and Changes in Net Position. The auditor must provide a statement that clearly states whether or not a school is meeting its loan obligations and/or delinquent with its debt service payments.

The *Net Invested in Capital Assets, Net of Related Debt* should be calculated using the formula below and disclosed in the notes to the financial statements:

Cost of Capital Assets Acquired **Less:** Accumulated Depreciation

Less: Outstanding Debt Related to Capital Assets

Equals: Net Investment in Capital Assets

- Restricted Net Position Includes net position by major categories of the restrictions, if any, either on the face of the Statement of Net Position or in the notes to the financial statements.
- Unrestricted Net Position Includes net position that does not meet the definition of Net Investment in Capital Assets, Net of Related Debt or Restricted Net Position.

The formula below is derived as Adjusted Net Position to offset the pension liability balance in charter school at the end of the fiscal year which should be handled and reflected in the state pension records)

- a. Net Position (Beginning of Year)
- b. +Change in Net Position
- *c.* =Net Position (End of Year)
- *d. Net Pension Liability (to reverse out)*
- e. -Net Pension Liability Related Items (to reverse out)
- = *Adjusted Net Position*

The summary reconciliation of the adjusted net position (the formula above) after the reversal of net pension liability (less or reverse out) and net pension liability related items (less or reverse out) should address separately in the Notes to the Financial Statements,

804 Statement of Revenue, Expenses and Changes in Net Position

The Statement of Revenue, Expenses and Changes in Net Position reflects the operating and non-operating activities of the charter school. The statement distinguishes between operating and non-operating revenues and expenses, which should be presented under the captions Operating Revenues, Operating Expenses and Non-Operating Revenues and Expenses. Revenues from Capital Contributions, special and extraordinary items and transfers should be reported separately in the statement after the Non-Operating Revenues and Expenses section. The auditor must indicate if the banks/credit unions the charter school uses are located in Nevada and FDIC insured and/or collateralized for amount in excess of \$250,000.

The following is a list of typical charter school revenue and expense items by classification. The listing is presented for illustrative purposes only as management should use their judgment when determining which revenue and expense categories should be included within this statement.

805 Statement of Cash Flows

The *Statement of Cash Flows* summarizes cash inflows and outflows from operating, investing and financing activities that occurred during the accounting period. The charter school, in accordance with GASB is required to prepare the *Statement of Cash Flows* using the direct method. The direct method reports cash receipts and cash disbursements from operating activities for the fiscal year. This method also requires that a reconciliation be prepared that agrees the change in operating net position to the net cash provided by or used in operating activities.

The Statement of Cash Flows consists of the following classifications of cash flow:

- 1. Cash Flows from Operating Activities
- 2. Cash Flows from Non Capital Financing Activities

807 Schedule of Findings and Questioned Costs

The Schedule of Findings and Questioned Costs must identify significant deficiencies, material weaknesses, fraud, illegal acts, violations of provisions of contracts and grant agreements, and abuse related to financial statements for which Government Auditing Standards requires reporting.

In addition, if an audit is required to be conducted in accordance with OMB Uniform Guidance this section should identify the federal audit findings required to be reported by section 501(a) of OMB Uniform Guidance, including significant deficiencies, material weaknesses and material instances of noncompliance, questioned costs, as well as any abuse involving federal awards that are material to the major programs. The results of the audit should be included in the *Summary of Audit Results* section.

Audit findings that relate to both the financial statements and the federal awards should be reported in both sections listed above. Findings should be presented in the following format:

Condition: Detail description of the condition.

Effect: Effect of the condition on the charter school's operation.

The Schedule of Expenditures of Federal Awards reports all federal activity within the charter school, inclusive of federal expense transactions associated with grants, cost reimbursement contracts, cooperative agreements and direct appropriations; the disbursement of funds passed through to subrecipients; the use of proceeds under loan and loan guarantee programs; the receipt of surplus property; the receipt or use of surplus income; and the distribution or consumption of food commodities.

810 SF-SAC Data Collection Form for Reporting on Audits of States, Local Governments, and Non Profit Organizations. (Data Collection Form)

The *Data Collection Form* provides required information about the charter school audit inclusive of the federal awards it administers and the audit results in accordance with OMB Uniform Guidance. This information is required by OMB Uniform Guidance to be prepared at the completion of each audit and submitted, along with the audit report to the Federal Audit Clearinghouse electronically.

811 Board of Trustees Acceptance Letter

The Department requires that each charter school include a *Board Acceptance Letter* certifying that the board of trustees accepts the information included in the *Reporting Package*. The board of trustees will acknowledge that the audit was performed in accordance with *Government Auditing Standards* and the guidelines set forth in this *Guide*. The letter must be signed by either the President of the board of trustees, the Treasurer or a designated representative. (*See Appendix B*)

812 Management Letter

Issues identified that are not material but more than inconsequential may be communicated in a management letter. In addition, items identified that may improve operational efficiency and effectiveness or otherwise improve the charter school's internal control may also be communicated in a management letter. When a management letter is issued only for the purpose of providing management with efficiency comments or to communicate non-significant deficiencies a reference to the management letter does not need to be made in the *Independent Auditors Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards*. Otherwise, a reference to the management letter should be made in the body of this report.

900 Charter School End of Year Financial Report

The charter school is required to submit a *Charter School End of Year Financial Report* (*CSEOYFR*) to the Department on a date annually determined by the Department, but generally on or before the Wednesday before Thanksgiving of each year. The Department has developed a prescribed reporting format contained in the *CSEOYFR*. Please note as outlined in section 807, the CSEOYFR contains the required annual surplus calculation.

At the time of the publication of this Guide, the prescribed format consists of the following schedules, though this is subject to change:

Schedule 1 – Statement of Net Position

Schedule 2 – Statement of Revenue, Expenses and Changes in Net Position

Schedule 3 – Schedule of Functional Expenses

Schedule 4 – Schedule of Charter School Transportation Expenditures

Schedule 5 – Audit Questionnaire

Schedule 6 – Certification, Checks and Comments

The CSEOYFR is not complete unless the signed Certification Statement is sent to the Department via e-mail.

The CSEOYFR is considered unaudited information for purposes of the *Reporting Package*, but does require compliance testing as noted in Section 1011 of this *Guide*.

1000 Compliance Requirements

The compliance requirements identified below have been developed by the Department as being inherently risky and highly susceptible to non-compliance. The audit procedures associated with these compliance requirements are intended to be illustrative and are not to be considered comprehensive. The design of appropriate audit tests to satisfy these requirements should be based upon the auditors' professional judgment.

The compliance requirements below are not applicable to a closeout audit being performed. The applicable compliance requirements for a closeout audit are included in **Appendix D.**

1001 Internal Controls

In accordance with the Department's charter school regulations the charter school, under the direction of the board of trustees, is required to establish and maintain adequate accounting records and internal control procedures. A charter school receiving federal financial assistance must adhere to the internal control requirements contained in OMB Circular A-87, *Cost Principles for State, Local, and Indian Tribal Governments* (amended May 10, 2004). Auditors should consult the compliance supplement for OMB Uniform Guidance for more information concerning specific internal control requirements, if applicable.

Internal control should consist of the following five components: control environment, risk assessment, control activities, information and communication and monitoring. The objectives of internal control relate to proper financial reporting, efficient operations and compliance with grant and management requirements.

Prior to reviewing and evaluating internal control the auditor should review the AU Section 314 Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatements the 2011 revision of the *Government Auditing Standards*.

- Review and determine if written internal control policies are available.
- Assess the adequacy of the internal controls in accordance with AU 314 and OMB Super Circular, if applicable.
- Assess the adequacy of the internal controls pertaining to compliance requirements for OMB Uniform Guidance, if applicable.

1002 Record Keeping

In accordance with the Department's charter school regulations the charter school is required to maintain their financial system and records in accordance with accounting principles generally accepted in the United States of America. Financial books and records of the charter school must reflect the source of all assets, liabilities, net position, revenues, and expenses recorded during the fiscal year. For network schools, each school must remain a separate financial system to record the financial activity of each school.

Recommended Audit Procedures:

- Determine whether the charter school maintains a financial system of recording and documenting all financial transactions.
- Review supporting documentation for selected transactions during the audit to determine if they are properly supported.
- Determine that the financial system properly tracks and reports each school separately.

1003 Related Party Disclosure

In accordance with the State of Nevada Charter School *Recommended Fiscal Policies and Procedures Guide* the charter school will follow Nevada Revised Statutes (NRS) 281A, the conflict of interest law and file financial disclosures pursuant to NRS 281.571. The charter school may not be operated for the benefit of an affiliated or unaffiliated organization or an individual in his or her own private capacity or individuals related to the charter school or members of its management. Thus, the charter school will be guided by the principle of arms-length standards with all affiliated or unaffiliated organizations or with a private or related individual(s).

- Review and become familiar with the requirements and recommendations as codified in the AICPA Statement of Auditing Standards, FASB Accounting Standards Codification 850 Related Party Disclosures, Government Auditing Standards.
- Obtain a listing of the related party transaction that occurred during the year whether material or not.
- Determine if the building is leased from a related party. If so, determine if the rent paid is the market rate for the area.
- Obtain representation from management and the board of trustees as to whether they or any other related party engaged in any transactions with the charter school during the year and disclosed **all** the required transactions in the accompanying notes to the financial statements.
- Determine that all transactions, between the network schools and other component units are properly disclosed in the notes to the financial statements

1004 Reporting

In accordance with the provisions of Title 34 of the Nevada Revised Statutes and the accompanying regulations, specifically included NRS Chapter 338A and NAC Chapters 386 and 387, the charter school is required to submit both financial and non-financial reports. These reports include the *Annual Report and Enrollment Reports*.

Capital Plan (contained within the Annual Report) – Approved capital plan for the next fiscal year including the amount held in reserve for the purchase or renovation an academic facility pursuant to the capital plan. A vote of the charter school's board of trustees is required to designate funds to be held in reserve for such purposes. These reserve funds should be reported as an adjustment to the Supplemental Schedule of 20% Excess Carryover Calculation and also reflected in the Statement of Net Position. Gifted Education Programming	Description
Section I: Program Design	n – Spending Plan Details
A. Describe, in detail how the Gifted and Talented GATE funds will be utilized.	Any Gifted and Talented Education (GATE) funds received from the State will be used to pay salaries for GATE endorsed teachers serving seven Somerset Academy schools. Any addition funds received will be used to purchase test protocols, materials and supplies, as well as learning experiences beyond the boundaries of the school.
B. Explain how the funds will be used to expand or implement effective practices in GATE programming, social emotional learning and the continuum of services from elementary through high school.	To expand the knowledge base of the gifted education specialists and the teachers working with students with gifts and talents, three areas will be targeted: training for gifted specialists, staff development for regular education staff, and parent and family support and education. Training opportunities will be supported for the gifted education specialists. This may include participation in workshops provided by visiting experts in the field. It may also include collaboration with Doral Academy Schools, or Pinecrest Academy Schools to attend lectures and workshops provided to GATE specialists.
	Time will be provided for the gifted education specialists to provide staff development to the regular education teachers within Somerset Academy of Las Vegas in the areas of dual exceptionalities, the highly gifted, and the social emotional needs of the gifted. Additionally, collaboration with regular education teachers will be supported. This would include modeling appropriate teaching strategies, the development and differentiation of curriculum lessons and units, as well as problem solving for students with gifts and talents across all grades, kindergarten through high school. To provide support to parents and families of students with gifts and talents,
	SENG (Supporting the Emotional Needs of the Gifted) workshops will be explored. The purpose of SENG is to educate and empower gifted individuals

and their families, and to support students with gifts and talents so they may reach their educational, emotional, and social goals. In addition, activities and culminating projects, as well as learning experiences off school campuses will include parents and families of the GATE students.

C. Describe how the services and support to GATE students will align to an existing plan or strategic plan. If such a plan or guiding document does not exist, describe the process which will be used to develop one, including obtaining community and school input.

The mission statement adopted by the Board of Directors for Somerset Academy of Las Vegas states that all schools seek to "excel in academics and attain knowledge through life-long learning by dedicating ourselves to providing equitable, high-quality education for all students ... [and] promote a culture that maximizes student achievement and fosters the development of accountable 21st Century learners in a safe and enriching environment." The educational outcome for students of Somerset Academy as stated in the Vision Statement is to cultivate effective leaders, good character, and a desire to render service. The GATE program at all Somerset schools will support all identified students as they reach for college and careers beyond the boundaries of school by achieving at their full potential to become effective leaders, demonstrate good behavior, and a desire to serve others.

To address the learning needs of students with gifts and talents at the Somerset Academy schools, grade or subject acceleration may be used when the student is achieving significantly above grade level. Because the general education curriculum at the schools is rigorous, many academic needs can be effectively met in the regular education classroom, and is supported by the collaboration of the gifted education specialist and the regular education teachers.

The GATE Program at Somerset Academy of Las Vegas was developed to address the learning needs of the student population of high ability learners that are not addressed in the regular education classroom. These students may be extraordinarily high academically, or not performing at his or her grade or ability level, or English language learners, but nevertheless demonstrate the characteristics of a gifted learner as demonstrated on the ability assessments. The GATE classroom is able to provide for the social emotional needs and learning experiences critical to the development of the gifted students.

D. Describe the measures which will be used to assure that teachers have the requisite license for teaching in a program for gifted and talented students.

Nevada state law, as described in NAC 388.165, dictates that teachers of students with gifts and talents must meet the requirements for licensure in this field. Somerset Academy of Las Vegas requires that teachers in the program for gifted and talented students must be licensed by the State of Nevada. All teaching licenses will be collected and on file at each school site. This information will be submitted to the State upon request.

Section II: Student Identification

A. Describe the assessment procedure and instruments used to identify students as gifted and talented in conformance with NAC 388.435, including the eligibility rubric adopted by the NDE.

In conformance with NAC 388.435, a variety of assessments will be used to determine eligibility to receive services in the Gifted and Talented Education (GATE) Program provided by Somerset Academy of Las Vegas.

Students in 3rd, 4th, and 5th grade are referred for testing by a teacher or by the parent(s). In the spring of each school year 2nd grade students may be referred and tested for placement in 3rd grade GATE. Authorization to evaluate the student is obtained from the parent. The parent completes the Parent Recommendation form, and the referring teacher completes a Teacher Recommendation form.

A test of cognitive ability will be individually administered as required by state law. As provided in the rubric adopted by the Nevada Department of Education, the final percentile rank derived from the composite scaled score will be used.

The Kaufman Brief Intelligence Test (KBIT-2) will be administered. It measures both verbal and nonverbal ability. The verbal subtests include both receptive and expressive vocabulary, but do not require reading or spelling. This improves the efficacy of use with diverse populations.

The Naglieri Nonverbal Ability Test (NNAT3) will be administered as well. The NNAT3 is a nonverbal measure of general ability that has been determined appropriate for use with diverse student populations that include English language learners and students found eligible for special education services.

The higher of the two cognitive ability scores will be used for Factor 1: IQ Eligibility.

Scores from various tests of achievement administered to students at Somerset Academy of Las Vegas, both general and content specific, will be used to determine Factor 2: Achievement Eligibility. As provided in the rubric adopted by the Nevada Department of Education, the highest of the scores in reading and math will be used.

The Smarter Balanced Assessment Consortium (SBAC) is administered to all students in grades 3 through 5 during spring term. Percentile ranks are provided. Recent SBAC scores for students in 4th and 5th grade may be used if available to determine Factor 2.

Measures of Academic Progress (MAP) is administered to students at all grade levels three times during the school year. MAP is a computeradaptive benchmark assessment in both reading and math. The assessments compare students to national norms, and provide grade level progress for each student. Percentile ranks are provided. The percentile ranks obtained on the *most recent* MAP assessment may be used to determine Factor 2 for 3rd, 4th, and 5th grade students. Percentile ranks obtained in the spring will be used for 2nd grade students referred for testing for potential placement in GATE for 3rd grade and at the beginning of the new school year.

iReady Diagnostic is administered to students in all grades three times during the school year: fall, winter, and spring. iReady Diagnostic is a computer-adaptive benchmark assessment in reading and math. The most recently obtained percentile ranks will be used for students referred for testing for potential placement in GATE at the beginning of the new school year, or for students that do not have SBAC or MAP scores.

Some students (e.g., new to Nevada, new to Somerset Academy) may come to Somerset with no normed achievement test percentile ranks in reading or math. This may also occur with 2nd or 3rd grade students who have not taken the SBAC or have not yet participated in MAP assessments. Should this be the case, the KTEA3 Brief reading and math subtests will be administered to the student. The reading and math percentile ranks will be compared, and the highest rank will be used for Factor 2.

The GATE eligibility rubric adopted by the Nevada Department of Education is completed by the GATE specialist. As noted above, points are awarded for Factor 1. Points are awarded for Factor 2 using the highest obtained percentile rank on achievement assessments in reading and math.

Points are awarded for Factor 3: Other Considerations. Documentation to support the points awards will be provided. The Qualifying Standard chart is completed to make a final determination of eligibility. If the student does not score in the 98th percentile or higher on a test of ability, a score of 15 or higher must be obtained on the Qualifying Standard chart.

The team meets, eligibility is explained to the parents, and if the student is found eligible for GATE services, the parent is asked to provide authorization for placement in the GATE Program.

Reciprocity:

Reciprocity will be honored for all students who have qualified for gifted education services in any other county in Nevada upon receipt of documentation of prior test scores and eligibility. The Nevada GATE Eligibility Rubric will be included.

Per Article 5-B of the Interstate Compact on Educational Opportunity for Military Children, gifted education services will be provided to students whose parent is in the military service based on the prior district's eligibility requirements. Documentation must be provided.

All students coming to Somerset Academy of Las Vegas from out of state who are not military students must have met one of the following criteria to qualify for participation in the GATE Program at Somerset Academy of Las Vegas schools:

The student qualified for gifted education services in his/her prior district with documented test scores at or above the 98th percentile on a test of general intellectual ability.

If the test scores of general intellectual ability are not from the list of approved tests, and/or the documented test score is below the 98th percentile, the student will be reevaluated using the state approved procedures of Somerset Academy of Las Vegas.

By law (NAC 388.435), all students who qualify for gifted and talented services, and whose parents have signed the Authorization for Placement, must receive not less than 150 minutes per week, or not less than 600 minutes per month, of differentiated educational instruction unless the student's individualized educational program provides otherwise. Programming cannot be withheld regardless of changes in classroom achievement and/or behavior.

B. Describe the data analysis which will be conducted to determine the proportionately of GATE students (i.e. demographic composition of community reflected in identified GATE student population) and any under identified populations.

Current race/ethnicity demographic data was obtained for the students at all 7 Somerset Academy schools in the spring term of the 2021-2022 school year. Because no students have yet been identified as gifted and talented at Somerset Academy of Las Vegas, no data is available.

Often, because the total number of GATE students is too small to run statistical analyses to determine significance, observation of the data will be used to provide insight. At this time, we are only able to look at the total demographic data of all students. No meaningful under- or overrepresentation or disproportionality was determined to exist among the general population of Somerset schools. Please see the following chart.

Race/ Ethnicity	Total # of GATE Students by Ethnicity	Total % of All GATE Students by Ethnicity	Total % of Somerset Population by Ethnicity

C. Describe the strategies which will be undertaken if disproportionately of GATE students or under identification was determined to exist.

To ensure that no under- or overrepresentation or disproportionality in the identification of students with gifts and talents becomes a concern, three strategies will be implemented. On-going regular education teacher training will be provided to all school campuses. Characteristics of students with gifts and talents, learning preferences, as well as unique qualities will be presented to inform teachers of what to look for when referring students. Secondly, all students who have been referred by parents and/or teachers are tested. This improves the objectivity in the referral and testing process. Finally, both verbal and nonverbal ability assessments will be used. The Naglieri Nonverbal Ability Test has been found to be appropriate for racially, ethnically, and academically diverse populations, as well as students who have been found eligible for special education services thus improving the efficacy of the evaluation process.

Section III: Record Keeping

A. Describe the means by which identified gifted education student records are kept and maintained. When a student is referred for eligibility testing for the GATE program a folder will be started. Each folder will contain the Teacher Recommendation form, Parent Recommendation form, and the Eligibility Determination form. The assessment protocols are also placed in the folder. If the student is found eligible, the Eligibility Determination Letter and Authorization for Placement form signed by the parent are placed in the folder. As the student participates in the GATE program across school years, report cards and any other important documentation will be placed in the folder.

All GATE folders that have been created will be maintained in a locked file cabinet at each school site. Access is limited to the GATE Specialist, school administrators, as well as certificated employees and classified support staff having a legitimate educational interest (i.e., engaged in activities having a direct student's social, emotional, and /or physical welfare). Finally, parents have the right to inspect all educational records for his/her child and receive copies upon request.

^{*}Information regarding curriculum and instruction, professional development, family and community involvement, compliance and program evaluation will be required in the final report.
